

RAVICHANDRA BODDURI

FULL-STACK DEVELOPER | React.js | React Native | JavaScript | PHP | REST APIs | MySQL

Hyderabad, India • 8 Years Experience • ravi1993272@gmail.com • GitHub: github.com/ravi1927

PROFESSIONAL SUMMARY

Full-Stack Developer with 8 years of software development experience building responsive web applications, React Native mobile applications, REST APIs, role-based platforms, dashboards, reporting workflows, and database-driven systems. Strong hands-on experience with React.js, React Native, JavaScript, PHP, CodeIgniter, MySQL/SQL, API integration and UI development. Uses Figma for interface planning and AI-assisted development with ChatGPT, Claude and Cursor to accelerate architecture, implementation, debugging, documentation and testing. Currently expanding Java REST API development knowledge.

CORE SKILLS

React.js • React Native • JavaScript ES6+ • HTML5 • CSS3 • Bootstrap • PHP • CodeIgniter • REST API development/integration • MySQL • SQL • Java REST API (learning) • Figma • Git/GitHub • Responsive UI • Role-based access • Reporting & exports • AI-assisted development • ChatGPT • Claude • Cursor

PROFESSIONAL EXPERIENCE

Aptiway Technologies — Software Developer | Feb 2022 – Present

- **Wakati:** Developed and maintained web/mobile workflows for Admin, Adjudicator, CFO, Merchant and EXIM Bank roles using React.js and React Native.
- Implemented user/merchant management, role-based access, filtered data tables, reporting, Excel/PDF exports, QR generation, event/organizer management and refund workflows.
- **Bank of Baroda (BOB):** Contributed to role-based Admin/Adjudicator workflows, data management, approvals, reporting and exports.

Spondias India Pvt Ltd — Software Developer | Jan 2020 – Jan 2022

- **DVLA:** Developed React Native mobile applications for police users and customers for driver and vehicle management workflows, including QR-code scanning.

Zonup Technologies — Software Developer | Jan 2018 – Jan 2020

- Built responsive web applications using HTML, CSS, JavaScript and PHP; maintained backend services, application workflows and MySQL data using CodeIgniter.

SELECTED PROJECTS

Wakati — React.js • React Native • PHP/REST • MySQL

Multi-role web and mobile platform with merchant management, reporting, QR generation, events, refunds and customer/business applications.

Bank of Baroda (BOB) — React.js • REST workflows • Role-based access

Admin and Adjudicator web application supporting approval workflows, records, reporting and exports.

DVLA — React Native • QR scanning

Police and customer mobile applications for driver and vehicle management.

ADAFSA Food Application — React • Data collection • Reporting

Food/nutrition survey application for household data collection, nutrition calculations and reporting.

Milk Delivery Application — React Native • Admin dashboard

Delivery workflow with Admin and Delivery Boy roles, area/customer assignment, daily Pending → Delivered status tracking and reports.

CNAM / Bank of Abyssinia / SkillPundit / ProxyRam — React.js • PHP • CodeIgniter • MySQL

Additional role-based dashboards, enrollment systems, learning platforms and compliance applications.

AI-ASSISTED DEVELOPMENT

Uses ChatGPT for requirements, architecture, SQL/API planning, debugging and test planning; Claude for code review and alternative reasoning; Cursor for implementation and iterative code changes. Uses Figma to translate product requirements into screen layouts, reusable components, states and developer-ready UI specifications.

EDUCATION / CONTINUOUS LEARNING

Java REST API development — currently learning Spring-style REST concepts, authentication, validation, database integration and API architecture to complement existing PHP REST API experience.
