PROFESSIONAL SUMMARY

Senior Frontend Developer with 8 years of experience building responsive web and mobile applications using React.js, React Native, JavaScript, HTML, CSS, PHP, and MySQL. Experienced in role-based application workflows, dynamic dashboards, REST API integrations, reporting interfaces, and data export features.

TECHNICAL SKILLS

Frontend & Mobile: React.js, React Native, JavaScript (ES6+), HTML5, CSS3, Bootstrap, AngularJS

Backend & Database: PHP, CodeIgniter, MySQL

Tools: Git, GitHub, Visual Studio Code

Development: REST API Integration, Responsive Web Design, Role-Based UI, Dashboard Development, Debugging, Agile Development

PROFESSIONAL EXPERIENCE

Aptiway Technologies | Software Developer | Feb 2022 – Present

- Develop and maintain web applications using React.js, JavaScript, and PHP; build responsive UI components, integrate backend APIs, and optimize application performance.

Wakati — Merchant, Events & Refund Management Platform (Web & Mobile)

Worked on Wakati React Native apps for customer and business users alongside the web platform. Supported Admin, Adjudicator, CFO, Merchant, and EXIM Bank roles; user and merchant management; configurable dropdowns; filtered tables; reporting with Excel/PDF exports; activity details; QR generation; event/organizer management; and refund workflows.

Bank of Baroda (BOB) — Web Application

Contributed to a role-based web application with Admin and Adjudicator logins, user/data management, approval workflows, reporting, and data export capabilities.

Spondias India Pvt Ltd | Software Developer | Jan 2020 – Jan 2022

- Developed dynamic frontend applications using React.js and integrated backend APIs.

DVLA — Vehicle Management System (React Native)

Developed mobile applications for police users and customers, supporting driver and vehicle management workflows and QR-code scanning.

Zonup Technologies | Software Developer | Jan 2018 – Jan 2020

- Built responsive web applications using HTML, CSS, JavaScript, and PHP; maintained backend services and application data workflows using CodeIgniter and MySQL.

OTHER KEY PROJECTS

ADAFSA — Food Survey & Nutrition Application

Food and nutrition application with multiple user roles and modules for user creation, survey creation, household food-consumption data collection, nutrition calculations, and reporting. Surveyors visit households to record what people eat and provide food-related feedback to support healthier choices. Reports include detailed summaries and nutrient-focused information.

Bank of Abyssinia — Customer Enrollment System

Customer enrollment functionality to capture customer information, support bank-account creation, and maintain records; included data export and an Adjudicator review/approval workflow.

CNAM Dashboard

Role-based application with Admin and Adjudicator logins and workflows similar to the Bank of Baroda application.

SkillPundit — Online Learning Platform

Built modules using React.js and PHP to support programming-language learning and online tests.

ProxyRam — Company Compliance System

Developed dashboard and notification functionality using CodeIgniter and MySQL.

EDUCATION

Bachelor of Technology (Computer Science) — BVC Engineering College, Amalapuram | 2015
